## Firearms for Police Service and Training

### Ruger® M-77V® Bolt Action Rifle

(Scope not included)

Suggested List Price: \$393.00

Stiff heavy barrel and patented Ruger diagonal bedding system for greater accuracy. A wide selection of additional calibers and specifications is also available.

Increasingly selected as a counter sniper rifle for special forces, the Ruger M-77V in .308 (7.62mm NATO) caliber offers superior accuracy and durability in a traditional configuration. Offered with integral Ruger scope bases and rings for a one inch scope tube, with barrel drilled and tapped for target type spot telescopic sights. Specifications: 5-Shot capacity, Length: 42", Weight: 8½ Lbs. (approx.), Barrel length: 24", Sliding tang safety. Catalog No. M-77V.

### Ruger® 10/22® Semi-Automatic Rifle

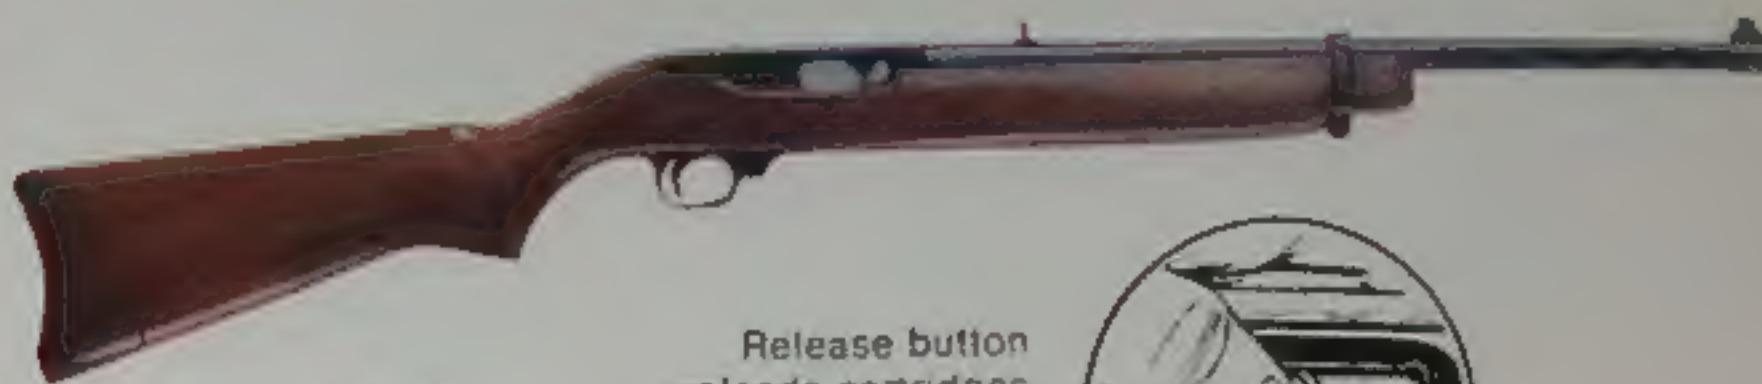

Suggested List Price: \$134.50

Unique, (Ruger Patent) ten-shot rotary magazine fits flush into stock.

Well suited as rugged and reliable training rifle, the .22 caliber 10/22 autoloader is built to high power rifle standards and will stand up to very heavy use. The low cost of .22 ammunition permits ample practice at relatively low cost. A unique dual-screw dovetail method of attaching the barrel to the receiver results in excellent accuracy. A scope base adapter comes with each rifle. Specifications: Caliber: .22 Long Rifle, high speed or regular, Barrel length: 18½", Weight: 5 Lbs., Length: 37½", Stock: American hardwood, Magazine: 10-Shot rotary type. Catalog No. 10/22-RB.

In addition to the products described, there are a number of other Ruger models which are especially well suited for special service and training. Each of these products incorporates the Ruger design philosophy of bringing together creative engineering and superior materials to produce uniquely appropriate firearms.

### Ruger® Model 44 Carbine

Release button unloads cartridges from the magazine one at a time.

Suggested List Price: \$332.00

The Model 44 Carbine uses the .44 Magnum caliber cartridge, providing an ideal combination of light weight, short overall length, moderate recoil and great stopping power. The smooth autoloading action gives five shots as fast as the shooter can aim and squeeze. The mechanism is strong and reliable. The receiver and barrel are of chrome-molybdenum steel. Specifications: Barrel length: 18½", Overall length: 36¾", Weight: 5 Lbs., 12 Oz., Receiver drilled and tapped for standard scope mount bases. Magazine: tubular, holds four cartridges with the fifth in the chamber. Two-stage trigger. Stock: American walnut. Cross-button safety. Catalog No. 44-R.

### Ruger® Mark II Target Model Automatic Pistol

Cylindrical bolt operates within receiver, does not disturb sight alignment

Suggested List Price: \$176.00

Excellent for target practice and training. The new Mark II Target Model automatic pistol is equipped with an adjustable click rear sight and undercut front sight. The U.S. Army and Air Force have purchased thousands of Ruger automatic pistols for training purposes. Specifications: Caliber: .22 long rifle, Barrel length: 6¾" (tapered) Overall length: 10¾", Weight: 42 Oz. Trigger pull is light and crisp. Mark II Bull Barrel is identical to the Mark II Target Model except that it is equipped with a shorter, 5½" untapered heavy barrel.
